## **FRC and FRP Materials in Seismic Design and the Retrofitting of Reinforced Concrete and Masonry Structures**

Guest Editors:

**Dr. Theodoros Rousakis**

**Dr. Ioannis E. Kavvadias**

**Dr. Maria C. Naoum**

**Dr. Kosmas E. Bantilas**

**Dr. Emmanouil Golias**

Deadline for manuscript  
submissions:

**closed (15 May 2024)**

### **Message from the Guest Editors**

Dear Colleagues,

Topics of interest for this Special Issue include experimental investigations into the mechanical properties of FRC and FRPs, analysis of the structural behavior and performance of concrete and masonry members retrofitted with FRC and FRPs, analytical and numerical modeling of FRC and FRP retrofitting techniques, and assessment of the seismic response and performance of structures.

The publication of this Special Issue will contribute to the advancement of knowledge in the field of FRC and FRPs, providing valuable insights for researchers, engineers, and professionals involved in the design and retrofitting of concrete and masonry structures.

We look forward to receiving valuable contributions that will further enhance our understanding and application of FRC and FRP in designing and redesigning concrete and masonry members and structures.

Dr. Theodoros Rousakis

Dr. Ioannis E. Kavvadias

Dr. Maria C. Naoum

Dr. Kosmas E. Bantilas

Dr. Emmanouil Golias

## Editor-in-Chief

### **Prof. Dr. Martin J. D. Clift**

In Vitro Toxicology Group,  
Institute of Life Sciences 1,  
Swansea University Medical  
School (SUMS), Swansea SA2  
8PP, Wales, UK

## Message from the Editor-in-Chief

*Fibers* is intended as an integrative platform, bringing together specialists with expertise concerning a large range of biological, synthetic, metallic and mineral fibers. The intent is to bring together scientists who would otherwise be unlikely to encounter each other's findings. By facilitating communication across specialties, the journal will advance understanding of the underlying commonality of many physical and chemical aspects of fibers.

We welcome submission of manuscripts from a diverse range of disciplines relating to many types of fibers utilizing a variety of research approaches.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), PubAg, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** CiteScore - Q1 (*Civil and Structural Engineering*)
