Hollow Core Optical Fibers

Guest Editor:

Prof. Dr. Walter Belardi

Department of Engineering and
Architecture, University of Parma,
Parma, Italy

Deadline for manuscript
submissions:

closed (31 October 2018)

Message from the Guest Editor

Dear Colleagues,

In the last decade and, more in particular, in the last few years, the field of research of *Hollow Core Optical Fibers* has been gaining a great deal of attention. Investigations into novel optical designs, fabrication approaches, optical properties and use of this type of specialty optical fiber are generating an incredible number of advances in fields as broad as gas fiber lasers, optical fiber communication, optical fiber sensing, high power lasers, THz waveguides, mid-infrared and ultra-violet optical fibers, polymer optical fibers, and others.

This Special Issue of *Fibers* intends to cover recent advances in the general field of hollow core optical fibers and solicits contributions from researchers active in the optical design, fabrication, characterization, or the use of hollow core optical fiber technology.

Dr. Walter Belardi

Guest Editor

Special Issue

fibers

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Martin J. D. Clift

In Vitro Toxicology Group,
Institute of Life Sciences 1,
Swansea University Medical
School (SUMS), Swansea SA2
8PP, Wales, UK

Message from the Editor-in-Chief

Fibers is intended as an integrative platform, bringing together specialists with expertise concerning a large range of biological, synthetic, metallic and mineral fibers. The intent is to bring together scientists who would otherwise be unlikely to encounter each other's findings. By facilitating communication across specialties, the journal will advance understanding of the underlying commonality of many physical and chemical aspects of fibers.

We welcome submission of manuscripts from a diverse range of disciplines relating to many types of fibers utilizing a variety of research approaches.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), PubAg, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: CiteScore - Q1 (*Civil and Structural Engineering*)
