## Recent Advances and Future Trends on Comprehensive Utilization of Food Waste and Side Streams

Guest Editors:

**Prof. Dr. Francisco J. Barba**

**Dr. Celia Carrillo**

**Dr. Iris Catiana Zampini**

**Prof. Dr. Mariá Inés Isla**

Deadline for manuscript  
submissions:

**closed (30 August 2022)**

### Message from the Guest Editors

Food waste and side streams have been traditionally underexploited or used in activities with low-added-value. However, they have a great potential for food, pharmaceutical, biotechnological and cosmetic activities, among other fields of application. In this sense, several studies have evaluated food waste and side streams from agriculture and marine origin as an excellent source of nutrients and bioactive compounds. Moreover, these matrices can be also used as a raw material for the development of biofuels and biomaterials (i.e., packaging) thus addressing the sustainability aspects covered by the UN's 2030 program.

Therefore, in this Special Issue we are accepting manuscripts (original research articles or reviews) dealing with the use of conventional and innovative approaches for the sustainable use of food wastes and subproducts from agricultural and marine to obtain nutrients and bioactive compounds, bioingredients, biomaterials, biofuels, packaging products, others.

## Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
