Deadline for manuscript
submissions:

closed (31 October 2017)

Message from the Guest Editor

Dear Colleagues,

With forests now facing dual and sometimes interacting threats of climate change and pest insect outbreaks, there is a pressing need for studies advancing our understanding of forest pest population dynamics and how these population dynamics may be affected by climate change. We welcome high-quality submissions of articles and reviews addressing any aspect of the spatial and/or temporal patterns of forest pest outbreaks, the drivers of these patterns, effects of climate change on outbreak dynamics, or synergistic effects of climate change and outbreaks on forests.

Dr. Kyle Haynes

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)
