Decision Support Approaches in Adaptive Forest Management— Selected Papers from the IUFRO 125th Anniversary Congress

Guest Editors:

Dr. Jan Kašpar

Prof. Dr. Pete Bettinger

Prof. Dr. Harald Vacik

Prof. Dr. Róbert Marušák

Dr. Jordi Garcia-Gonzalo

Deadline for manuscript submissions:

closed (31 December 2017)

Message from the Guest Editors

Nowadays, Decision Support Systems (DSS) can play a significant role in analysing the needs of adaptation of forest management strategies and can support policy makers in making appropriate decisions. DSS are important to adjust present management to mitigate the impacts of climate change on forests and forest management. At the same time, the influence of adaptive management on ecosystem services and forest multifunctionality is the task of DSS use.

We encourage original manuscripts from all fields, yet specifically those involving forest management decision support systems, approaches, and models, in order to promote and advance knowledge about decision-making processes used in adaptive and sustainable forest management planning.

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
