Message from the Guest Editors

A forest-based bioeconomy is posited to reduce the environmental impacts of economic growth through improved management that ensures sustainable production and consumption. While forests cover a third of the global land area, they are weakly included in bioeconomy strategies, and non-timber forest products (NTFP) are absent. The plants, fungi and animals that produce NTFP are essential to peoples' food, medicinal, energy and livelihood security and sovereignty and healthy and resilient forest ecosystems, and as sources of phytochemicals and further products, thus constituting integral parts of any forest-based bioeconomy.

Deadline for manuscript
submissions:
closed (31 August 2022)

The IUFRO task force “Unlocking the Bioeconomy and Non-Timber Forest Products” is facilitating this Special Issue of the journal *Forests*. The Special Issue “Non-timber Forest Products and the Bioeconomy” addresses the myriad of issues affecting efforts to improve the production, management and governance of NTFP to support inclusion in emerging models of forest-based bioeconomies.

We are looking for a wide geographic and gender diversity of authors and subjects and encourage students and young professionals to contribute.

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (*Forestry*) / CiteScore - Q1 (*Forestry*)
