Deadline for manuscript  
submissions:

**closed (30 June 2019)**

### Message from the Guest Editors

Whitebark pine (*Pinus albicaulis*) forests have been declining from the combined effects of mountain pine beetle outbreaks, fire exclusion policies, and the exotic disease white pine blister rust. Projected warming and drying trends in climate may exacerbate this decline; however, whitebark pine has a wide climatic tolerance because of its broad distribution coupled with high genetic diversity. The ongoing decline poses serious consequences for upper subalpine and treeline ecosystems, and, as a result, whitebark pine is a candidate species for listing under the Endangered Species Act. Many land management agencies are now employing various actions in attempts to restore this valuable forest, including implementing pro-active thinning and burning treatments, planting rust-resistant seedlings. However, there has been limited research on this particular species. This Special Issue is designed to be composed of papers that can be used to help restore this important high mountain resource.

## Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

**Journal Rank:** JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)
