Deadline for manuscript
submissions:

closed (31 March 2019)

Message from the Guest Editor

Dear Colleagues,

The proposed subject of this Special Issue is “Smart Systems and Smart Living”. Basic topics are human and social factors (also including environmental ones), all related to smart systems and their applications as increasingly impacting quality of life. A focus is jointly promoted on Internet-of-Things and cyber-physical systems, specifically their impact on quality of life in Smart City contexts.

Prof. Dr. Dino Giuli

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank: CiteScore - Q1 (*Computer Networks and Communications*)
