

Internet of Medical Things

Guest Editors:

Dr. David Taniar

Faculty of Information
Technology, Monash University,
Melbourne, VIC 3800, Australia

Dr. Kiki Adhinugraha

Department of Computer Science
and Information Technology, La
Trobe University, Bundoora, VIC
3168, Australia

Deadline for manuscript
submissions:

20 August 2024

Message from the Guest Editors

The topics of this Special Issue include, but are not limited to (taken from the example), the following: State-of-the-art IoMT health monitoring and sensing paradigms.

- Emerging IoMT research trends.
- Data collection, integration, and interpretation in IoMT.
- Unobtrusive health monitoring with IoMT.
- IoMT security-related issues, such as device authentication, connection, encryption, and data protection regarding sensitive medical data.
- IoMT network architectures and connectivity.
- IoMT for AI-powered sensor data analysis.
- IoMT and mobile apps for healthcare.
- Diagnosis and disease detection using IoMT.
- Data linkage with Electronic Medical Records (EMR) and other existing databases.
- Infrastructures for IoMT (e.g., compute power, storage, and network speed).
- IoMT reliability and fault tolerance.
- Other sensor applications in the healthcare domain.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari

Department of Engineering and
Architecture, University of Parma,
Parco Area delle Scienze, 181/A,
43124 Parma, Italy

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

Journal Rank: CiteScore - Q1 (*Computer Networks and Communications*)
