

Theory and Observations of Galactic Outflows

Guest Editors:

Dr. Bernd Husemann

Max Planck Institute for
Astronomy, Germany

Dr. Dominika Wylezalek

Astronomisches Rechen-Institut,
Zentrum für Astronomie der
Universität Heidelberg, 69120
Heidelberg, Germany

Dr. I-Ting Ho

Max Planck Institute for
Astronomy, Germany

Deadline for manuscript
submissions:

closed (31 August 2018)

Message from the Guest Editors

Dear Colleagues,

We were wondering if you have had time to consider our offer to publish **free of charge** after successful peer-review and processing.

Several authors are planning to submit review articles on the following topics:

- 1) *Observations of AGN-driven Galactic winds* (**Francisco Müller-Sanchez**)
- 2) *Observations of starburst-driven Galactic winds* (**David Rupke**)
- 3) *Theory of AGN-driven Galactic winds* (**Alexander Wagner**)
- 4) *Theory of starburst-driven Galactic winds* (**Dong Zhang**)

These reviews will certainly set a nice framework for this Special Issue and we sincerely hope this invitation will receive your favorable consideration. Some of the non-exhaustive list of key topics to be covered are as follows:

Editors-in-Chief

Dr. Margo Aller

Department of Astronomy,
University of Michigan, Ann
Arbor, MI 48109-1042, USA

Dr. Jose L. Gómez

Instituto de Astrofísica de
Andalucía (IAA-CSIC), Glorieta de
la Astronomía S/N, 18008
Granada, Spain

Message from the Editorial Board

Galaxies provides an advanced forum for studies related to astronomy, astrophysics, and cosmology, including all of their subfields. Different formats, such as specialized research articles, reviews, communications and technical notes are welcomed. Manuscripts containing original and creative research proposals and ideas are especially appreciated.

We encourage scientists to publish their astronomical observations and theoretical results in as much detail as possible. There is no restriction on the paper length and full experimental and methodological details, as applicable, should be provided. All papers will be peer reviewed promptly. On behalf of the distinguished members of the editorial board, I extend my welcome to all researchers working on these subjects to contribute to *Galaxies*.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Astrophysics Data System, INSPIRE, Inspec, and other databases.

Journal Rank: CiteScore - Q2 (*Astronomy and Astrophysics*)
