Message from the Collection Editor

Dear Colleagues,

This Collection will be a summary of high-quality papers from excellent scholars around the world invited by the Editorial Office and the Editor-in-Chief. Both original research articles and comprehensive review papers are welcome. The papers will be published, **free of charge**, with full open access after peer review to benefit both authors and readers.

The list of subtopics corresponds to the one given in ***Galaxies***, namely:

- Astronomy;
- Astrophysics;
- Cosmology;
- Observational astronomy—radio, infrared, optical, X-ray, neutrino, etc.;
- Planetary science;
- Astronomy equipment and technologies;
- Aerospace engineering;
- Astronomical data analyses;
- Astrochemistry and astrobiology;
- Archaeoastronomy;
- History of astronomy and cosmology;
- Philosophical issues in cosmology.

Editors-in-Chief

Dr. Margo Aller

Department of Astronomy,
University of Michigan, Ann
Arbor, MI 48109-1042, USA

Dr. Jose L. Gómez

Instituto de Astrofísica de
Andalucía (IAA-CSIC), Glorieta de
la Astronomía S/N, 18008
Granada, Spain

Message from the Editorial Board

Galaxies provides an advanced forum for studies related to astronomy, astrophysics, and cosmology, including all of their subfields. Different formats, such as specialized research articles, reviews, communications and technical notes are welcomed. Manuscripts containing original and creative research proposals and ideas are especially appreciated.

We encourage scientists to publish their astronomical observations and theoretical results in as much detail as possible. There is no restriction on the paper length and full experimental and methodological details, as applicable, should be provided. All papers will be peer reviewed promptly. On behalf of the distinguished members of the editorial board, I extend my welcome to all researchers working on these subjects to contribute to *Galaxies*.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Astrophysics Data System, INSPIRE, Inspec, and other databases.

Journal Rank: CiteScore - Q2 (*Astronomy and Astrophysics*)
