Message from the Guest Editors

It is my pleasure to announce the launch of a new Special
Issue of *Healthcare* on "Pregnancy and Perinatal Health".
This is of course a particularly broad subject which covers
all the pathologies of pregnancy that have an impact on
the fetus, as well as all the diseases of the fetus and the
newborn. Some examples of pathologies of pregnancy and
perinatal health include:

1. Perinatal Hematology

2. Donation in Perinatology

3. Diseases in pregnancy that affect the newborn

I look forward to receiving your abstracts on these topics;
the authors of the most outstanding abstracts will be
invited to give an oral presentation to the next congress of
AEEP in Paris on 17–18 November 2021. Whether AEEP will
be in person or virtual is yet to be determined and will be
decided based on the situation around the COVID-19
pandemic at that time. Speakers must be members of
AEEP/EAPE (do note that registration is EUR 60/year).
