

## **Multisensory Research and Design for Health and Wellbeing in Architectural Environments**

Guest Editors:

**Prof. Dr. Derek Clements-Croome**

**Ms. Valerie Mace**

**Ms. Youmna Dmour**

**Ms. Ankita Dwivedi**

Deadline for manuscript  
submissions:

**closed (30 April 2022)**

### **Message from the Guest Editors**

Our existence is enlivened every waking moment by a symphony of stimuli from people, objects, building spaces, task interests, and nature. This rich array of inputs to the mind and body generates a multisensory experience that can colour and enrich the environment for people to live and work in. Like in music, in which the notes of melodies, harmonies, and rhythms magically combine in a myriad of ways to inspire the mind, multisensory design weaves a tapestry and diversity of experience for people to flourish in.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
