Deadline for manuscript  
submissions:

**closed (31 October 2018)**

### Message from the Guest Editors

We would like to invite papers to this Special Issue of the *International Journal of Environmental Research and Public Health*, which will explore the application of Social Network Analysis (SNA) to applied health research. We welcome the submission of theoretical, methodological, empirical, and review papers using a range of social network methodologies and with clear implications for policy. We are particularly interested in research using mixed methods and ego-net analysis. Some of the themes that the papers could address include:

- Health and well-being
- Illness management in everyday life
- Online and offline personal communities
- Changing health behaviours and social practice
- Interactions between healthcare, social care, and community support
- Public policy and enabling environments
- New technologies and changes in healthcare delivery
- Development, implementation and evaluation of interventions

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
