Message from the Guest Editor

A Special Issue on Athlete Performance and Health is being organized for the *International Journal of Environmental Research and Public Health*.

This Special Issue aims to collect scientific papers that are related to athlete performance in different modalities, including both team and individual sports. Papers related to performance improvement, performance analysis, and training methods are accepted. In addition, taking into account that the sport practice can pose important health/injury problems, papers that describe the health of athletes of different modalities are accepted as well as articles that demonstrate the effects of different methods to improve the health of athletes. This Special Issue is open to any contributions in the subject area of athlete's performance and health. The keywords listed below provide an outline of some of the possible areas of interest.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
