### Message from the Guest Editor

Dear Colleagues,

Occupational safety and health emphasizes hazard and risk prevention in workplaces by establishing a positive working culture and environment to ensure the safety, health and welfare of workers. Multidisciplinary fields are involved in occupational safety and health, for instance, human factors, ergonomics, technology, industrial and organizational psychology, and law.

Certain research issues are identified as important for enhancing the occupational safety and the health of workers, including, but not limited to, policy and system establishment, program formulation, participant and stakeholder consultation, education and training, ethical consideration and policy enforcement, to managing the risk and guarantees the well-being of workers. This Special Issue is open to any subject areas related to occupational safety and health. In particular, submissions on newly-emerging research areas, like human factors in safety and health, risk perception and measurements, health and safety of the aging workforce, etc., are welcome.

Prof. Dr. Alan H. S. Chan

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
