Prof. Dr. Klaus Greier

Department of Sport Science,
University of Innsbruck, 6020
Innsbruck, Austria

Message from the Guest Editors

This Special Issue aims to highlight the importance of physical fitness and motor competence for the health and well-being of children and adolescents, by providing an interdisciplinary platform for research addressing this topic. Manuscripts for consideration in this Special Issue can either describe original research or review the scientific literature. In addition, we welcome manuscripts that discuss theoretical models informing the design of interventions that target physical fitness and motor competence in children and adolescents, in order to increase future public health.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
