Medicine, Tokyo, Japan

Deadline for manuscript
submissions:

31 July 2024

Message from the Guest Editor

In recent years, the relationship between abnormal protein accumulation in neurons and aging has garnered significant attention, particularly in the context of neurodegenerative diseases, such as Alzheimer's disease and Parkinson's disease. Understanding the changes in the brain and the aging process of neural tissues is a crucial step towards preventing and treating neurodegenerative disease, and Alzheimer's disease (AD) and Parkinson's disease (PD) constitute representative examples.

This Special Issue aims to focus on the association between aging and neurodegenerative disease while highlighting neuropathological features and presenting the latest research findings in this field. By comprehending the changes in the brain during aging, we will delve into the neuropathological characteristics of major neurodegenerative disease. Moreover, we will provide an overview of the recent advancements in research related to abnormal proteins implicated in neurodegenerative diseases.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
