Dr. Marcus Vetter

Center for Oncology and
Hematology, Cancer Center
Baselland, Medical University
Clinics, 4410 Liestal, Switzerland

Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editor

Dear Colleagues,

It is my pleasure to invite you to contribute to this Special Issue entitled “Gynecological Cancer 2024”. The three main cancer types discussed will be ovarian cancer, uterine cancer, and cervical cancer. Recently, there has been tremendous progress in the field of gynecological cancer, especially in terms of molecular biology, where so many new molecular subtypes and tailored treatment approaches have been observed. This Special Issue will focus on molecular insights into gynecological cancer treatments, and I warmly invite you to submit your most innovative research on this topic.

More published papers can be found in the First Edition of our Special Issue, “Gynecological Cancer 2023”.

Dr. Marcus Vetter

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
