Pharmacy Craiova, 200349
Craiova, Romania

Prof. Dr. Liliana Mititelu-Tartau

Department of Pharmacology,
Faculty of Medicine, “Grigore T.
Popa” University of Medicine and
Pharmacy, 700115 Iasi, Romania

Deadline for manuscript
submissions:

15 October 2024

Message from the Guest Editors

Dear Colleagues,

We are delighted to announce a Special Issue which aims to spotlight the promising approach of utilizing existing medications to address various neuropsychiatric conditions, thereby fostering innovative therapeutic strategies and advancements in patient care.

In recent years, drug repurposing has emerged as a compelling strategy in neuropsychiatric research, offering the potential to expedite the development of new treatments by leveraging established pharmacological agents with well-known safety profiles. This approach not only provides opportunities for cost-effective drug development but also holds the promise of addressing unmet medical needs and enhancing patient outcomes.

We cordially invite researchers, and experts in the field to contribute original research articles, reviews, case studies, and perspectives that delve into the multifaceted aspects of drug repurposing in neuropsychiatric disorders. Since *IJMS* is a journal of molecular science, purely clinical studies will not be suitable. However, clinical or pure model submissions with biomolecular experiments are welcomed.

We eagerly anticipate your valuable contributions to this Special Issue.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
