Deadline for manuscript
submissions:

30 September 2024

Message from the Guest Editor

Dear Colleagues,

In recent years, there has been a rapid proliferation of knowledge regarding health and the clinical approach to red-blood-cell-related diseases. Long assumed to be inert oxygen carriers, red blood cells (RBCs) are emerging as important modulators of the innate immune response. Furthermore, developments in novel red blood functions, blood bank storage methods, and red-blood-cell-based therapies have been reported. We are pleased to invite you to contribute original articles, reviews, and communications covering the entire field of RBC research, including, but not limited to, the following: Red blood cell (RBC) aging; pathological RBCs; immunological RBCs; blood bank storage; RBCs and vascular function; RBCs under stress (warming, hypoxia, sport); engineered RBCs; RBCs and drug interaction; and xenobiotics.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
