Advances in the Molecular Mechanisms in Gastrointestinal Tumorigenesis and Treatment

Guest Editor

Dr. Laura Francesca Pisani

Cellular and Molecular Immunology Lab, Department of Biotechnology and Biosciences, Univesità degli studi Milano – Bicocca, Piazza della Scienza, 2, 20126 Milano, Italy

Deadline for manuscript submissions:

15 June 2024

Message from the Guest Editor

Dear Colleagues,

It is widely accepted that inadequately resolved chronic inflammation is closely linked to cancer development, more so in the gastrointestinal tract and liver than in any other organs. Inflammation-driven malignancies can result from the complex crosstalk between cvtokines. chemokines, growth factors and reactive oxygen species (ROS) generated by inflammatory cells and injured parenchymal cells. Despite a clear causal relationship between inflammation and cancers in the gastrointestinal tract, further studies of the underlying mechanisms and signaling pathways regulated by chronic inflammation activators and inhibitors responsible for this interaction are not fully established.

We aim to develop this Special Issue to contribute and share updates on the advancements in this field.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
