University Medical College, 31-
531 Cracow, Poland

Prof. Dr. Jan Bilski

Department of Biomechanics
and Kinesiology, Faculty of
Health Sciences, Jagiellonian
University Medical College, 31-
008 Cracow, Poland

Deadline for manuscript
submissions:

closed (31 August 2022)

Message from the Guest Editors

Exercise has been shown to have a great impact on human life expectancy due to improved metabolic parameters mainly in obese individuals. However, whether exercises affect the course of various diseases in humans is very intriguing and should be further defined. In this context, physical activity and nutrition seem to be important components in optimizing human health benefits. Both adipose tissue and skeletal muscle are considered hormonal organs because of their ability to produce and secrete several bioactive peptides (e.g., myokines and adipokines).

Thus, this Special Issue entitled 'Adipokines, Myokines, and Exercise in Health and Disease' will publish experimental data and reviews on this innovative approach to this topic. Topics related to both original and reviewed articles on the impact of exercise on disease and health presented in experimental and clinical studies with an emphasis on physiological mediators and pharmacological agents are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
