Deadline for manuscript
submissions:

20 September 2024

Message from the Guest Editors

Dear Colleagues,

Complex structure often combined with a number of chiral centers makes natural compounds a unique resource both for their use in different areas of life science and for the development of new drugs. The main topic of the presented issue is to highlight new achievements in biosynthesis pathways and biotransformation of natural compounds as well as application of natural compounds and its derivatives in pharmaceutical and food industries and other fields. Innovative methods for isolation of natural products and new data on biological evaluation of natural compounds and their derivatives are also welcomed.

Prof. Dr. Konstantin Volcho

Dr. Olga Luzina

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
