Deadline for manuscript
submissions:

20 June 2024

Message from the Guest Editor

Dear Colleagues,

Thyroid cancer and thyroid dysfunctions represent up to 2% of human disorders and a third of endocrine disorders. The field of thyroid disorders in endocrinology is growing, extending to thyroid dysfunctions related to new targeted and therapy-related immune-checkpoint inhibitors. Although there have been no significant changes in the prevalence and incidence of thyroid cancer, nor in its overall survival rate, recent progress in basic science, clinical studies, and translational research on this disease has led to new perspectives and improved understanding of thyroid disorders and thyroid oncogenesis.

The main objective of this Special Issue is to present original research on the molecular biology of thyroid cancer and thyroid dysfunctions. We hope to highlight new data on molecular pathways and metabolic characteristics that might advance our understanding of thyroid cancer and thyroid dysfunction development, paving the way for the discovery of new diagnostic options or new targeted or combined therapies.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
