Mures, Romania

Deadline for manuscript  
submissions:

**31 July 2024**

### Message from the Guest Editor

Dear Colleagues,

The scope of this Special Issue is to collect papers referring to the biomarkers involved in the genesis, evolution, and systemic or lymphatic spread of gastrointestinal cancer. As, nowadays, targeted therapy is a hot topic, the identification of new predictive biomarkers has become mandatory in clinical practice. Any research or review-type papers that include data about tumor biomarkers, from experimental studies to clinical trials, are welcome. If some papers are mainly based on in silico analyses or examinations of public gene databases, they should include external validations of their own cohorts. We expect to receive papers focused on tissue or serum biomarkers, from protein expression to gene mutations and circulating DNA. Your individual contribution might be a step towards a better life for oncologic patients.

Prof. Dr. Simona Gurzu

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
