Research on Diagnostics, Pathogenesis and Novel Therapeutic Tools in Melanoma

Guest Editor:

Dr. Emi Dika

Dermatology Section, Department of Experimental, Diagnostic and Specialty Medicine, DIMES, University of Bologna, 40138 Bologna, Italy

Deadline for manuscript submissions:

closed (30 April 2024)

Message from the Guest Editor

Melanoma is a malignant tumor arising from the neoplastic transformation of cutaneous and/or mucosal melanocytes.

In recent years, great advancements have been achieved in the early diagnosis of this tumor combining (video)dermatoscopy first with reflectance confocal microscopy (RCM) and more recently, with line-field confocal optical coherence tomography (LC-OCT), a technology whose potential described in the current literature is limited but gradually growing to date.

The focus of this Special Issue is on the research of novel experimental therapies and studies highlighting new therapies adopted in clinical practices, their evolution, and their effects on improving prognosis. Novel investigations on alternative therapeutic strategies in order to overcome drug resistance will be particularly appreciated, as will findings aiming to improve prevention and early diagnosis of malignant melanoma.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
