Deadline for manuscript submissions:

closed (31 May 2024)

Message from the Guest Editor

Dear Colleagues,

Targeted therapy is a type of cancer treatment that targets specific molecules or proteins within cancer cells that are involved in the growth and spread of the tumor. These therapies are designed to inhibit the growth and spread of cancer cells while minimizing harm to normal cells. Examples of targeted therapies include monoclonal antibodies, small molecule inhibitors, and kinase inhibitors. These therapies are often used in combination with other treatments such as chemotherapy, radiation therapy, and surgery.

This Research Topic will provide an academic platform to discuss how different candidate therapeutic drugs can be used against deregulated regulatory pathways in TME. We invite authors to contribute original research and review articles testing the mechanism of action of natural and chemically synthesized bioactive products on various cancer types through the regulation of different molecular pathways (including suppression and overcoming resistance).

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
