### Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to collect high-quality review papers in all fields of molecular plant sciences. In particular, the aim is to illustrate frontier research in molecular plant sciences, through selected works. We encourage researchers from related fields, including potential topics related to molecular studies in plants, to contribute review papers that highlight the latest developments in molecular plant sciences, or to invite relevant experts and colleagues to do so. Full-length comprehensive reviews or new research advancements in molecular plant science areas will be preferred.

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
