### **Message from the Guest Editors**

This Special Issue aims to promote research in the fields that contribute to conceiving and developing a new drug substance and drug formulation. As with the previous Special Issues, this volume is not limited to any specific aspect of drug development. It aims to cover the entire process of drug development at the molecular level, to conform with the aims and scope of the Journal.

We would also like to draw your attention to the Interdisciplinary Conference on Drug Sciences, ACCORD 2024, to be held in Warsaw, Poland, 23–25 May 2024 (<https://accord.wum.edu.pl/>). All the participants of the ACCORD 2024 Conference will have the opportunity to publish a conference paper in this Special Issue. The manuscripts will undergo the regular peer-review process of the Journal.
