Deadline for manuscript
submissions:

30 June 2024

Message from the Guest Editor

Dear Colleagues

The focus of this issue will be on the structure and dynamic modes of interaction of antimicrobial peptides with their host cells and their mechanism(s) of biological activity. Emphasis will be mostly on these topics: (i) composition and dynamics of microbial cell membranes, (ii) effect of membrane lipids on interaction of antimicrobial peptides, (iii) general and specific modes of interaction of antimicrobial peptides with membrane lipids and membrane proteins, (iv) conformational changes and self-association of antimicrobial peptides, (v) antimicrobial peptide structures, (vi) interaction of antimicrobial peptides with organelles of the eukaryotic cells, (vii) interaction of antimicrobial peptides with nucleic acids, (viii) interaction of viruses with antimicrobial peptides, (ix) antimicrobial peptides with multiple biological activities, (x) structural and functional features of antimicrobial peptides in vivo, (xi) visualizing integrated pathways of antimicrobial peptides in microbial and non-microbial cells, and (xii) traditional and new experimental and theoretical methods in characterizing the biological function of antimicrobial peptides.

an Open Access Journal by MDPI

Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,
60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
