### Message from the Guest Editors

Dear Colleagues,

The aim of this special issue is to better understand the molecular mechanisms that are implicated in HPV carcinogenicity. We welcome submissions of research articles and reviews focused on the following potential topics (but are not limited to): molecular mechanisms (e.g. epigenetic mechanisms, viral integration events, viral oncoproteins deregulation), HPV genetic variability, biomarkers development, molecular epidemiology and new HPV detection and genotyping molecular assays in order to meet expert views, state of the art and recent advancements in the field of HPV, in the present Special Issue of *International Journal of Molecular Sciences*.

Deadline for manuscript  
submissions:

**31 August 2024**

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
