The Netherlands

Deadline for manuscript
submissions:

closed (15 May 2018)

Message from the Guest Editor

Traditional medicine is practiced in various cultures. In the Western world, traditional medicine is more and more valued and the use of traditional medicine is on the rise. One of the impediments is that, in the West, knowledge of traditional medicine is lacking. This has led to adverse effects due to the improper use of traditional medicine, which harms its introduction. This Special Issue is dedicated to further unravel the molecular mechanism of the mode of action and toxicity of traditional medicine, to connect traditional medicine to Western medicine. Previous studies demonstrate the broadness of pallet of the bioactives, as well as their intricate interplay in traditional medicine, aimed to cure diseases with minimal side effects. Western medicine will benefit from further unraveling of these interactions, which will also help to fully appreciate traditional medicine in the West.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
