Deadline for manuscript  
submissions:

**closed (31 January 2022)**

### **Message from the Guest Editor**

Dear Colleagues

Over the last decade, the advent of ‘omics’ technologies has greatly improved our understanding of the molecular mechanisms underlying the initiation and progression of many forms of leukemia and has led to the identification of several “druggable” targets. The molecular dissection of the leukemia genome and transcriptome has also improved the way we diagnose, classify, and monitor patients.

This Special Issue of the *International Journal of Molecular Sciences* will focus on “Advances in Molecular Biology and Targeted Therapy of Leukemias”, with the aim of providing an updated overview of our current knowledge of the pathogenesis of leukemias, lymphomas, and myeloma, of the promises and pitfalls of targeted therapeutic approaches, and of how molecular profiling and molecular monitoring are being integrated into the routine management of patients.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
