Deadline for manuscript  
submissions:

**closed (29 January 2019)**

### Message from the Guest Editor

Dear Colleagues,

Materials for energy applications are used to facilitate the transition to a sustainable energy system, which can make notable contributions to the field of energy applications using functional materials. Materials for energy harvesting can convert solar energy into electricity or chemical fuels, such as hydrogen or methanol. Materials for energy transport and storage can deal with storage of both electric energy in batteries and supercapacitors, and of chemical fuels, such as hydrogen. Fuel cells and thermoelectric materials can be used for energy conversion.

This Special Issue of the *International Journal of Molecular Science* will, thus, aim at presenting the most recent findings in the field of materials for energy applications. We invite the contribution of reviews papers and/or original research papers, which focus more on "molecular" or "applications" aspects of materials in this field.

### Keywords:

- Energy material
- Photocatalyst
- Secondary battery
- Hydrogen storage materials
- Sustainable materials
- Renewable resources

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
