Sodium Intake and Related Diseases 2.0

Guest Editors:

Dr. Massimo Lucarini

Dr. Alessandra Durazzo

Dr. Ginevra Lombardi-Boccia

Prof. Dr. Antonello Santini

Deadline for manuscript submissions:

closed (15 October 2022)

Message from the Guest Editors

This Special Issue is focused on the role of sodium (salt) in the body's physiological processes. Generally, complex mechanisms regulate sodium concentrations in bodily fluids: these mechanisms involve the cardiovascular and endocrine systems, the central nervous system, and the autonomic nervous system. The mechanisms involved in the regulation of sodium homeostasis will be at the center of this Special Issue. Some example topics are the mechanisms that influence the action of the sodiumpump, the renal tubular reabsorption potassium mechanisms regulated by hormones such as angiotensin II and norepinephrine, and those of elimination, regulated by and cyclic AMP. The dopamine molecular-level mechanisms of the relationship between sodium intakeblood pressure-cardiovascular disease and stomach cancer will be one of the focuses of the Special Issue.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
