Deadline for manuscript
submissions:

closed (28 February 2015)

Message from the Guest Editors

Dear Colleagues,

The development of supramolecular polymers over the last few decades has largely gone hand-in-hand with progress relating to the synthesis and characterization of new efficient and stimuli-responsive supramolecular building blocks. Great strides have been made in transforming these academically interesting macromolecules into assemblies with a range of applications, which concern advanced materials, medicine, and catalysis. In this Special Issue, we invite submissions focusing on new developments relating to the synthesis, self-assembly, and function of supramolecular polymers.

Prof. Dr. Graeme Cooke

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
