Deadline for manuscript  
submissions:

**closed (31 December 2024)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue welcomes contributions describing tools and methodologies and review papers with state-of-the-art findings that can significantly contribute to advancements in Smart Cities. Moreover, we expect to focus on all aspects and future research directions in the rapidly progressing subject of smart cities and their applications, aiming to provide the opportunity for researchers and practitioners to share their latest work on emerging topics.

We welcome submissions from researchers from all backgrounds and look forward to reading your work.

Relevant topics include, but are not limited to, the following:

- Smart city applications and services
- Smart city management platforms
- Modeling and simulation of smart cities
- Emerging technologies for critical verticals
- Information and communication technology (ICT) in smart cities
- People-centric systems and crowd-based computing in smart cities
- Business models for smart and circular cities
- Cloud, Fog, Edge, and service-oriented computing for smart cities
- Artificial intelligence and machine learning technologies

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Informatics* (ISSN 2227-9709) is an international, peer-reviewed, open access journal, which publishes original theoretical and empirical work on the science of informatics and its application in multiple fields. Our concept of Informatics includes technologies of information and communication as well as the biological, social, linguistic and cultural changes that initiate, accompany and complicate their development.

*Informatics* publishes regular research articles, reviews and short notes. There is no restriction on the length of papers, and we encourage researchers to publish their theoretical and empirical results in as much detail as possible. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [dblp](#), and [other databases](#).

**Journal Rank:** CiteScore - Q1 (Communication)
