Dr. Evangelos Kanoulas

Informatics Institute, University of
Amsterdam, 1098 XH Amsterdam,
The Netherlands

Dr. Prasenjit Majumder

1. Dhirubhai Ambani Institute of
Information and Communication
Technology, Gandhinagar, India
2. Visiting Faculty: TCG CREST,
Kolkata, India

Deadline for manuscript
submissions:

closed (15 March 2024)

Message from the Guest Editors

The Special Issue "Augmented Intelligence for Technology-Assisted Reviews Systems" is OPEN!

This Special Issue is dedicated to the second edition of the workshop on Augmented Intelligence in Technology-Assisted Review Systems (*ALTARS 2023*) that was held in Dublin during the 45th European Conference on Information Retrieval (ECIR).

The focus of the Special Issue is on the evaluation of high-recall information retrieval (IR) systems. This type of system is challenging they are confronted with the task of finding all the relevant documents concerning a topic in a collection.

The aim is to study innovative approaches to fathom the effectiveness of these systems, with the goal of:

- Fostering cross-discipline collaborations between researchers with different perspectives and research backgrounds in the TAR systems;
- Combining and analyzing existing theoretical and empirical research questions;
- Creating a set of shared datasets dedicated to the evaluation of TAR systems.

an Open Access Journal by MDPI

Editor-in-Chief

Software Engineering, University
of Wollongong, Northfields
Avenue, Wollongong, NSW 2522,
Australia

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compendex](#), [dblp](#), and [other databases](#).

Journal Rank: CiteScore - Q2 (*Information Systems*)
