

## Recent Trends in Nanofluids III

Guest Editors:

**Dr. M. M. Bhatti**

College of Mathematics and  
Systems Science, Shandong  
University of Science and  
Technology, Qingdao, China

**Dr. Sara I. Abdelsalam**

Basic Science, Faculty of  
Engineering, The British  
University in Egypt, Al-Shorouk  
City, Cairo 11837, Egypt

Deadline for manuscript  
submissions:  
**closed (31 May 2022)**

### Message from the Guest Editors

This Special Issue follows the publications of "Recent Trends in Nanofluids" and "Recent Trends in Nanofluids – II", which presented 12 high-quality papers.

This Special Issue invites you to contribute your original research work and review articles on "nanofluids", which either are advances of state-of-the-art mathematical methods or theoretical or experimental studies or extend the bounds of existing methodologies to new contributions to address current challenges. We hope that this issue will provide up-to-date findings to the readers and the scientific community for application to the benefit of the industrial sector.

Potential topics include, but are not limited to, the following:

- Nanofluids;
- Particle shape effects;
- Hybrid nanofluids;
- Convective heat and mass transfer;
- Steady and unsteady flow problems;
- Particle–fluid motion;
- Thermodynamics;
- Physiological fluid phenomena in biological systems;
- Numerical and analytical simulations.

an Open Access Journal by MDPI

## Editors-in-Chief

### **Prof. Dr. Chien-Hung Liu**

Department of Mechanical  
Engineering, National Chung  
Hsing University, 250 Kuo Kuang  
Rd., Taichung 402, Taiwan

### **Prof. Dr. Shoou-Jinn Chang**

Department of Electrical  
Engineering, National Cheng  
Kung University, Tainan 701,  
Taiwan

## Message from the Editorial Board

The unique journal *Inventions* is different from all other journals. Many scholars spend their lives publishing research papers in many different journals, but most of these journals do not help scholars collate and analyze their results or assist in promoting them to a relevant industry. However, *Inventions* will help authors not only to publish their papers in the journal, but also to promote their research results to industry and assist them in realizing the purpose of technology transfer. In the future, *Inventions* will help authors to evaluate their technology license fees based on the valuation theory and approaches and also help authors to show their patents and technologies on a network transaction platform.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

**Journal Rank:** CiteScore - Q1 (*General Engineering*)
