Deadline for manuscript
submissions:

8 October 2024

Message from the Guest Editor

Dear Colleagues,

It is my pleasure to invite you to contribute to the Special Issue entitled "Urothelial Carcinoma: Clinical Diagnosis and Treatment: Part II". This is a new volume and we previously published 11 papers in the first volume. For more details, please visit:

https://www.mdpi.com/journal/jcm/special_issues/Clinical_Urothelial_Carcinoma

Urothelial carcinoma (UC) represents the most common type of epithelial tumor diagnosed in Europe, North America, South America, and Asia. Currently, UC represents a clinical and social challenge because of its incidence, post-treatment recurrence rate, and prognosis. In recent years, the poor diagnostic accuracy of the available diagnostic tools such as urine cytology, white cystoscopy, and conventional imaging modalities have emphasized the urgent need for advancement in clinical guidance for UC. Moreover, novel treatment approaches, both medical and surgical, have significantly impacted the management of these patients. At the same time, the quality of life of these patients has gained growing interest. This Special Issue presents up-to-date summaries related to the diagnosis, prognostic assessment, and management of UC.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
