submissions:

20 November 2024

Message from the Guest Editor

Dear Colleagues,

Extracorporeal membrane oxygenation (ECMO) has gained popularity in various clinical emergencies and intensive care settings as a rescue tool for severe circulatory and/or respiratory failure. This proven rescue therapy is being increasingly used, but its further development and application remain challenging. The use of ECMO has entered a new phase during the COVID-19 pandemic. Managing ECMO is challenging due to the risks and possibilities faced by patients.

In this Special Issue, we plan to collect information on important ECMO-related complications, including, but not limited to, cardiovascular–pulmonary disease-related acute organ support and chronic support, as well as the publication of articles and reviews on emerging challenges and new strategies for further communication.

Dr. Yutaka Fujii

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
