Message from the Guest Editor

Dear Colleagues,

I have the honour of being the Guest Editor of a new Special Issue for the *Journal of Clinical Medicine*, titled “Type 2 Diabetes Research”.

The incidence of Type 2 diabetes is rising globally. Type 2 diabetes is also increasingly prevalent in children and young people who are affected by obesity. This Special Issue will bring together exciting papers focused on research on type 2 diabetes. Manuscripts that describe research on type 2 diabetes screening, management, structured education and the psychological impacts and their complications, including original research, reviews, or mini-reviews, will be welcome. The roles of new treatment, technologies and prevention are also of interest.

Prof. Dr. Sze May Ng

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
