### Message from the Guest Editors

Dear Colleagues,

Scientific evidence has shown the crucial role of rehabilitation in orthopaedic diseases. Such diseases include disorders of joints, muscles, tendons and ligaments. In particular, recent progress in surgical techniques has also implied an increasing demand for more personalized, efficient and effective postoperative rehabilitation. Much of the disabilities derived from orthopaedic diseases cause important functional limitations in everyday life conditions. In this scenario, prevention and optimal postoperative treatments are needed. Which rehabilitation protocol is the best for orthopaedic diseases is still widely discussed. This Special Issue discusses current rehabilitation procedures in orthopaedic diseases, highlighting the strengths and weaknesses and providing new intervention strategies.

Prof. Dr. Umile Giuseppe Longo

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
