Engineering, University of
Dundee, Dundee DD1 4HN, UK

Deadline for manuscript
submissions:

31 October 2024

Message from the Guest Editors

In the ever-evolving landscape of digital imaging, the demand for accurate and meaningful evaluation of image quality resonates across diverse applications, from medical diagnostics to social media. The importance of robust Image Quality Assessment (IQA) methodologies cannot be overstated in this context. This Special Issue serves as a pivotal platform for showcasing cutting-edge research, driving forward our understanding and methodologies for appraising the perceptual quality of images in an ever-evolving landscape.

We invite contributions presenting techniques that will shape the future roadmap of IQA, including methods, tools, and ideas contributing to significantly innovative objectives. Scientifically founded innovative and speculative research lines are welcomed for proposal and evaluation, as we collectively strive to advance the frontier of IQA techniques.

an Open Access Journal by MDPI

Editor-in-Chief

viale Sarca, 336, 20126 Milan, Italy

Message from the Editor-in-Chief

The imaging term, specific with journal, is to be considered in its broadest sense. Image processing, image understanding and computer vision are all terms related to imaging acquisition, its processing and the extraction of relevant information from the scene to obtain the underlying knowledge. All tasks related to the above items are oriented toward specific applications in a broad range of areas and topics. The *Journal of Imaging* is conceived as an efficient vehicle in the scientific community for the communication and transmission of the progress and research results in the topics covered.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), PubMed, PMC, dblp, Inspec, Ei Compendex, and other databases.

Journal Rank: CiteScore - Q2 (*Computer Graphics and Computer-Aided Design*)
