### Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to collate and publish original research articles covering the latest developments in the field of offshore wind and wave energy. Some potential topics might include—but are not limited to—technological aspects, such as new devices and their designs, modelling, control algorithms and simulation approaches, power optimization, energy harnessing and storage, and grid connection. Environmental and economic aspects will also be considered for inclusion in the Special Issue, for example, those focusing on management, price evolution, and resource prediction. Review or research papers in these areas are both welcome.

Deadline for manuscript  
submissions:

**closed (30 June 2023)**

## Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (*Engineering, Marine*) / CiteScore - Q2 (*Ocean Engineering*)
