Deadline for manuscript submissions:

closed (30 June 2019)

# Message from the Guest Editor

Dear Colleagues,

Structural mechanics is an important field of engineering. The main goal of structural mechanics research is to ensure that the structures are safe and durable to prevent catastrophic situations, which can cause loss of lives, environmental pollution, and financial loses. Depending on the usage of the structure and the conditions that it is subjected to requires a special treatment during the analysis. Specifically, marine structures are subjected to harsh environmental conditions due to environment which can cause several different damage mechanisms including damages due to fatigue and corrosion. This Special Issue will provide a compilation of numerical, experimental and analytical studies related to "Marine Structures" research

Assoc. Prof. Dr. Erkan Oterkus Guest Editor

# **Message from the Editor-in-Chief**

The Journal of Marine Science and Engineering (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
