Message from the Guest Editor

Dear Colleagues,

The diagnosis and management of all diseases caused by *Aspergillus* species, from allergic to invasive conditions, have changed rapidly over the last several years. This Special Issue is designed to highlight some of the latest clinical and translational thoughts on the entire spectrum of disease management. Special topics will include the epidemiology in specific patient populations, diagnosis of disease and definitions of resistance, and antifungal management of allergic, invasive, and chronic forms of aspergillosis. Authors are specifically chosen as experts in those sub-fields, who are actively researching these topics and leading the charge to improve the current diagnostic and clinical states.

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Mycology*) / CiteScore - Q1 (*Ecology, Evolution, Behavior and Systematics*)
