## Land Use Planning and Territorial Impact Assessment Analysis to Bound and Regulate Land Use Depauperative Dynamics

Guest Editors:

**Prof. Dr. Bernardino Romano**

**Dr. Federico Martellozzo**

**Dr. Federico Amato**

**Prof. Dr. Beniamino Murgante**

Deadline for manuscript  
submissions:  
**closed (29 February 2020)**

### Message from the Guest Editors

The growth in demand for natural resources, particularly by urbanites, is undoubtedly a matter that needs urgent solutions. This problem is exacerbated by a growing population projected up to 9 billion, coupled with an accelerated rural-to-urban migration.

This Special Issue aims at collecting original contributions, subject to a rigorous peer review, regarding empirical and theoretical innovative works that focus on the elaboration of forecasts and projections for the future, or ex-post evidence-based analysis, on depauperative land use dynamics. The main goal is to investigate the dynamic of the human/environment interaction, learn from past examples, understand where this is leading human development, imagine an alternative future, and elaborate on what should be done to achieve sustainability goals.

Prof. Beniamino Murgante

Geography, Department  
Sustainable Landscape  
Development, University of Halle,  
Von-Seckendorff-Platz 4, 06120  
Halle, Germany

## Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
