of Agricultural Sciences and  
Veterinary Medicine, Cluj-  
Napoca, Romania

Deadline for manuscript  
submissions:

**closed (25 December 2020)**

### Message from the Guest Editor

This Special Issue "Soil Tillage Systems and Conservative Agriculture" will publish the results of the research or personal contributions of reviewers in the field of soil tillage systems (minimum tillage, no-tillage, etc.) – soil protection – crop rotation in the current context of conservative agriculture.

In this Special Issue, we seek scientifically sound manuscripts with relevance in at least one of the following topics: (1) Soil tillage for agricultural sustainability; (2) influence of soil tillage system on productivity, energy efficiency, and economics; (3) tillage system impacts on environmental quality and soil parameters; (4) advantages and disadvantages of conservative soil tillage systems; (5) technological differentiations in the application of conservative soil tillage systems.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
